WORK EXPERIENCE

Software Engineer

Eaton

09/2023 - Present

Pune

Achievements/Tasks

- Collaborated with cross-functional teams to design and develop UI solutions for data center products like BLSS and Foreseer.
- Designed and developed advanced user interfaces for Brightlayer Software Suite (BLSS) and Foreseer using Angular and ReactJS.
- Delivered features like One Line Diagrams, multi-threshold graphs, waveform analysis, harmonics plotting, and data visualization.
- Streamlined CI/CD pipelines using Docker and Kubernetes, reducing deployment time by 30%.
- Enhanced visualization features with tools like Chart.js, creating scalable solutions for waveform analysis and multi-threshold graphs.

Software Engineer - Full Stack

Ather Energy

02/2022 - 09/2023

Bengaluru

Achievements/Tasks

- Built a subscription management system for EV charging services, integrating payment gateways for secure transactions.
- Collaborated with a cross-functional team to design and implement the application's features and functionalities.
- Optimized scalability with ECS load balancers, ensuring seamless handling of high user traffic.
- Led requirement gathering, development, and deployment of multiple B2C products from scratch at Ather.
- Mentored junior developers in Javascript concepts and conducted regular code reviews to maintain high-quality standards.

INDEPENDENT PROJECTS

Camp Bridge

- An interactive web application for colleges that connects students based on shared interests and enables society formation.
- Tools Used: PostgreSQL, Express.js, HTML, CSS, JavaScript.

EDUCATION

Bachelor Of Technology (CSE)

GL Bajaj Institute Of Technology

08/2017 - 07/2021

8.8 GPA

Intermediate

Rani Laxmi Bai School, Lucknow

04/2016 - 05/2017

90.2%

SKILLS

Frontend: Angular, ReactJS, Next.js, Chart.js, Three.js

Backend: Node.js, Sails.js, Express, Convex

DevOps: Docker, Kubernetes, Bull Jobs

Databases: PostgreSQL

Programming: JavaScript, C++/STL, Data Structures & Algorithms

Soft Skills: Problem Solving, Team Collaboration, Mentorship

ACHIEVEMENTS

Took ownership of migrating legacy systems to modern standards at Ather, ensuring long-term scalability and maintainability.

Delivered and launched multiple high-impact B2C products from scratch.

Mentored team members in advanced JavaScript and development processes.

Involved in end-to-end creation and launch of multiple B2C products.

Conducted live coding sessions for students as part of Coding Ninjas, solving doubts and mentoring future engineers.

Achieved top 2/100+ rank in an inter-college coding competition.
